SUMMARY

Motivated and results-oriented Front-End Developer with 3+ years of experience crafting user-friendly web applications. Strong foundation in HTML, CSS, and JavaScript with strong proficiency in Next.js, React.js and familiarity with Angular. Besides, have worked as a backend developer with Node.js and Spring Boot, also knowledge of CI/CD, docker. Seeking an opportunity for the fulfillment of my passion for software engineering at a well-established organization through an ongoing career and I will do my best for the benefit and development of the company.
